Sparta-Tomah Broadcasting Co., Inc. (WCOW-FM, WKLJ-AM, WFBZ-FM) participated in the Western Technical College Career Expo that took place at the La Crosse Center in La Crosse, WI. There were 82 colleges and universities included in this event. Students from area high schools were in attendance. An on-air staff member was a career presenter for the career breakout sessions. As a presenter, you are given the opportunity to talk about the broadcast industry and the available positions within that industry. At the end of the sessions there was Q&A for the students and presenter. This allows students to explore career options as they plan their next step in life. They may also learn about a career they haven't even thought about. A great connection for students.

Sparta-Tomah Broadcasting Co., Inc. (WCOW-FM, WKLJ-AM, WFBZ-FM) participated in the Career, Job and Education Fair 2023 that was sponsored by Sparta Chamber of Commerce, Wisconsin Department of Workforce Development, and the Sparta Area School District. This event allowed us to educate those students both inside and outside of our community on the broadcast industry. This allows both students and the public to connect with the community and to explore career options by partnering with businesses in our community.

The station continues to stay connected with both middle and high school events such as SHS Reality Store, this event gives the junior class the opportunity to learn life skills such as researching job options, setting up a bank account, preparing taxes and more. At the middle school level, we were part of the Spelling Bee. This gives our on-air staff a way to connect with the younger students in the community. They are always interested in what takes place at the radio station especially on-air.

College student interns assisted with play-by-play broadcasts for high school football, basketball, and baseball games.

WFBZ, WCOW, and WKLJ was represented by Suzanne Hoffman at the EEO Seminar: A Review of the FCC's EEO Requirements for Broadcasters which was held as a webinar on April 13, 2023.
